

installation tips

1

be sure these 2 areas line up.

- clean surface.
- tape in place.

2

- peel back top portion of decal & trim off top portion of release liner.

3

- rub down with thumb starting at the top edge.
- if there is a bubble then just quickly pull it back.

4

- remove tape.
- continue pressing down decal with thumb while removing release liner.
- press into all recesses as you go.
